Pisces, the Ocean of Primordial Life and the Divine Couple

We have arrived at the Mother-Night of Egyptian Cosmology, the profound ocean of Pisces, the Initiatic, limitless darkness of the Absolute Abstract Space; the first element of the abyss where the undines guard the Rhine Gold or the Fire of the Divine and Genetic Thought.

Pisces is governed by Neptune (the planet of practical occultism) and by Thundering Jupiter (the Father of the Gods). Pisces is wisely symbolized by two Fish; the Fish is the 'Soma' of the Mysteries of Isis. The Fish is the living symbol of Primitive, Gnostic Christianity. The Two Fish of Pisces linked by a hyphen have a profound Gnostic significance. They represent the two Souls of the Primordial Elohim submerged within the deep waters of Mother-Night.

We have already explained that the Inner-Self, the Being, Atman, has Two Souls, one feminine and the other masculine. We have already explained that the Spiritual Soul, Buddhi, is feminine and that the Human Soul, Superior Manas, is masculine. The sacred couple, the Divine Eternal Matrimony, is always symbolized by two fish linked by a hyphen; the latter is the Being, Atman.

The sacred couple (the two eternal fish), work within the waters of the abyss when the dawning of the Mahamvantara arrives. The two ineffable Fish work under the direction of Atman (the Inner Being). However, it is good to remember that Isis & Osiris could never work in the Great Work without the famous Mercury of Secret Philosophy. In this Sexual Mercury lies the key to all power.

A circle with a traversed vertical line in hieratic symbolism, is the very sacred union of the Eternal Feminine with the Eternal Masculine; the integration of the opposites in the ineffable and Divine, Essential Monad. The Monad, the Being, surges forth from within the Great Mother-Space. From within the Great Ocean the Elohim rise in order to work in the aurora of the Mahamvantara.

Water is the feminine element of all creation, from which the Latin 'Mater', and the terribly divine letter M, originate from. In Gnostic Christianity, Maria (or Mary) is the same Isis, the Mother of the Cosmos, the eternal Mother-Space, the profound waters of the abyss. The word MARIA (Mary) is divided into two syllables; the first is MAR, which reminds us of the deep ocean of Pisces. The second is IA, which is a variant of IO (iiiioooo), the august name of Mother-Space, the circle of Nothingness, from which everything emanates and everything returns; the ONE, the UNIQUE ONE of the manifested universe, after the night of the Great Pralaya or annihilation.

Once the superior waters were separated from the inferior waters, Light was made. In other words, the animating Verb of the Cosmos, the Son, surged forth into life. And this life took, as its transmitting element, the Sun, which is found at the center of our solar system, like the heart within our organism.

The fecundating vibrations of the Sun are really the living Elemental Fire which condenses in the center of each planet, constituting the heart of it. All that Light, all that Life, is represented by the seven spirits before the throne, within the Heart-Temple of each of the seven planets of the solar system. The work of separating the waters from the waters, corresponds to the sacred couple.

Each of the Seven Spirits before the Throne, emanated from itself, the sacred pair of Fish in order for the couple to work at the dawning of creation with the power of Kriya-Shakti, the power of the lost word, the power of the Will and Yoga.

The Love of Loves, the Mystical Passion of the last fire within the Eternal Husband and the Divine Wife are vital in order to separate the Superior Waters from the Inferior Waters. He provides the Fire and she transmutes the Waters (separating the Superior from the Inferior). The two Fish then project that fire and that superior transmuted water upon the waters of the Chaos, upon the cosmic matter or material for the worlds, upon the sleeping germs of existence and life sprouts forth. The entire work is carried out with the help of the Word, the Will and Yoga.

In the beginning, the universe is subtle. Afterwards it condenses materially, going through successive periods of progressive crystallization. Millions of universes exist in infinite space, within the bosom of Mother-Space. Some universes are coming out of the Pralaya, surging forth from within the deep waters of Pisces; others are in full activity, others are dissolving within the eternal waters. Isis & Osiris could not do anything without the Sexual Mercury; the two eternal fish, love, adore each other and live always creating again and again.

The fish is the most sacred symbol of Primitive Gnostic Christianity. It is a pity that thousands of students of occultism have forgotten the Gnosis of the fish. The Age of Pisces should not have been a failure as it really was. The *causa causorum* of the Piscine failure was due to certain tenebrous elements who betrayed Gnosis and preached certain Agnostic or Anti-Gnostic Doctrines, underestimating the Fish, discarding the Religious Wisdom and sinking humanity into materialism.

The result of the Agnostic Christianity, was the Marxist Materialistic Dialectic. The reaction against Agnosticism was the godless and lawless repugnant materialism. It can be affirmed that the Age of Pisces failed due to Agnosticism. Jesus Christ and his Twelve Fishermen initiated an Age that could well have been one of great splendors. Jesus and his Twelve Gnostic Apostles indicated the precise path for the Age of Pisces, Gnosticism, the wisdom of the Fish. It is a pity that all the sacred books of the HOLY GNOSIS were burned and the sacred symbol of the fish forgotten.

Samael Aun Weor's Practice to Gather the Energy of Pisces

During the sign of Pisces, we have to vocalize one hour daily. Let us remember that in the beginning was the Verb and that the Verb was with God and that the Verb was God. In ancient times, the seven vowels of nature resounded in the entire human organism from head to toes, and it is now necessary to restore the seven notes in the marvelous harp of our organism, in order to restore the lost powers.

Pineal and Pituitary glands	I:	i i
Thyroid gland	E:	e e
Heart	O:	o o
Solar Plexus	U:	u u
Pulmonary chakras	A:	a a
the <i>Ens Seminis</i> , the Waters of Life, the Philosophical Mercury	M:	m m
the Fire within us	S:	s s

It is necessary to inhale, then exhaling the air together with the well prolonged vowel sound, until exhausting the exhalation. This exercise has to be done daily in order to develop the internal magical powers...
