The Ray of Creation: The Logos, the Word of Verb of God

Sound, Music, the Word or Verb, placed by the LOGOS in 7 musical octaves, firmly sustains the Universe on its march. When one talks about the Great Word, one is also talking about the sound of Music, of Rhythms...

There are 7 orders of worlds, 7 cosmos that were created with the power of the Verb, with music, with sound. The 7 notes of the GREAT SCALE OF THE CREATIVE VERB resonate in all of creation, because **in the beginning was the VERB...** Our own Ray of Creation began in the Absolute and ends in the Abyss (the Inferior Worlds). The proper arrangement of the Ray of Creation is as follows:

1. [First 'DO'] Absolutely Everything – the **Protocosmos**, it is of a purely spiritual nature, it is found submerged within the uncreated Light of the ABSOLUTE, with its 1 law.
2. ['SI'] All the Worlds – the **Ayocosmos or Megalocosmos**, the great cosmos (all the galaxies or worlds of infinite space), with 3 laws.
3. ['LA'] All the Suns – the **Macrocosmos**, our Galaxy, the Milky Way, with 6 laws.
4. ['SOL'] Our Sun – the **Deutercosmos**, the Solar System, with 12 laws.
5. ['FA'] The Planetary Worlds – the **Mesocosmos**, the planets, with 24 laws.
6. ['MI'] The Earth – the **Microcosm**, our planet itself, as well as the “philosophical earth” which corresponds to our physical organism, with 48 laws.
7. ['RE'] The Interior of the Earth – the **Tritocosmos**, the infinitely small (such as atoms, molecules, insects, microbes, etc.), and also the Abyss, with 96+ laws.
8. [Final 'DO'] Absolutely Nothing – there is no known cosmos here, but with it the Cosmic Octave is complete.

Each of the 7 COSMOS is beyond all doubt a living organism that lives, breathes, and feels. From the Esoteric point of view, we can affirm that every progress upwards, is the result of a progress downwards. One cannot ascend without descending. First one has to descend and then ascend. **If we want to know a Cosmos, we should first know the two adjoining ones, the one that is above and the one that is below, because both determine all the circumstances and vital phenomena of the Cosmos that we want to study.** Example: nowadays scientists struggle for the conquest of space, advances are being made in the field of the infinitely small, in the atomic world. The Gnostic has to study the laws which govern all of these 7 cosmos, with the goal of knowing the place that they occupy in life and what they must do in order to achieve final liberation.

The Law of 3 Creates, the Law of 7 Organizes

Our Gnostic students should never forget what the 3 forces called Father-Son-Holy Spirit are. These 3 forces constitute the SACRED TRIAMAZIKAMNO (the Law of 3):

1	Father	Holy Affirming	Positive	the HOLY GOD or HOLY IMMORTAL SURP-OTHEOS	The Propelling, Affirming, Positive Force
2	Son	Holy Denying	Negative	the HOLY FIRM or SURP-SKIOS	The Negative Force, the Negating Force, the Force of Resistance
3	Holy Spirit	Holy Reconciling	Neutral	the HOLY IMMORTAL or SURP-ATHANOTOS	The Reconciling Force, the Liberating Force, the Neutralizing Force

In the Ray of Creation, these 3 forces resemble 3 wills, 3 consciousnesses, 3 units. Each of these 3 forces contains (in itself) all the possibilities of the 3. But, in their point of conjunction, each of them manifest only its principle: the positive, negative or neutral. It is very interesting to see the 3 forces in action. They separate, move away from each other and then come together again in order to form new trinities which originate new worlds, new creations. In the Absolute, the 3 forces are the Unique Logos, the Army of the Verb within the Great Unity of life free in its movement. The Creative Process of the SACRED TRIAMAZIKAMNO (the Law of 3) was initiated with the sexual marriage of the word because **in the beginning was the verb, and the verb was with God and the verb was God. Because of him all things were made and without him nothing that is made would have been made.** (see John 1:1-3)

In accordance with the Sacred Law of Heptaparaparshinokh (the Law of 7), 7 temples were established in the Chaos for the construction of this Solar System. In accordance with the Sacred Law of Triamazikamno (the Law of 3), the Elohim divided into 3 groups within every temple to sing in accordance with the Liturgy of Fire. The ANGELS create with the power of the word. The Larynx is a uterus where the word is gestated. The work of fecundating or impregnating the PRAKRITI (the CHAOS) the Cosmic Mother, the GREAT WOMB, is always the labor of the very sacred THIRD FORCE...

Another Version of Samael Aun Weor's Taurus Practice

In this period of Taurus we should bring Light to our creative larynx with the purpose of preparing it for the advent of the Fire.

1. The disciple should sit in a comfortable armchair
2. Close the physical eyes (in order for nothing of this vain and stubborn world to distract them)
3. Empty the mind, cast out of one's mind all kinds of thoughts, desires, worries, etc.
4. Now imagine that the Light accumulated during Aries, in one's chalice (in one's head), moves with Taurus to the Creative Larynx.
5. The devotee should sing the powerful Mantram **AUM** 4 times:
 - a. One should open one's mouth properly with the **A**, imagine that the LIGHT descends from the head to the larynx;
 - b. Then vocalize the **U**, vividly imagining that the Light floods the throat, the mouth should be rounded properly to sing the **U**.
 - c. The last letter is the **M**, pronounced while closing the lips, expelling or casting out the breath with force, as if eliminating the refuse (or slag) from the throat

With the exercises of Taurus one develops the Magical Ear (related with the Thyroid Gland), the power to hear the cosmic symphonies, the music of the spheres, the Rhythms of the Fire which sustain the 7 cosmos in accordance with the Law of the Octaves.
