## **Nature and the Laws of Evolution, Involution, and Eternal Return**

Evolution is the constructive process of Nature, while Involution or Devolution is the destructive process. When we forget the destructive processes of Nature, we miss a huge piece to understanding the cycles of Nature. Similarly, the mind that confuses a fall with a descent, also confuses the process of destruction, dissolution on a large scale, degeneration, etc., and classifies it as change, progress, Evolution...

Everything Evolves & Devolves, ascends & descends, comes & goes, fluxes & refluxes; a systole & diastole exists in everything, in accordance with the Law of the Pendulum. Evolution and its twin sister Involution are two laws which are developed and processed in a coordinated and harmonious manner in everything created. **Evolution and Involution constitute the mechanical axis of Nature**, they are two mechanical laws of Nature which have nothing to do with Intimate Self-Realization. This is because Intimate Self-Realization can never be the product of any mechanical law, but is instead the result of a conscious work carried out upon and within oneself, on the basis of tremendous super-efforts, in-depth comprehension and intentional and voluntary sufferings.

## **Involution and the 108 Lives**

Everything Returns to the point of departure and the Lunar Ego returns after death to a new womb. It is written that every human being is assigned 108 lives in order to become Self-Realized. Whoever does not attain Self-Realization within their allotted time ceases to be born, to enter the Infernal Worlds. The antechamber of the Infernal Worlds is the Involutionary descent into bodies more and more inferior each time, in accordance with the Law of Involution. Those who descend through the spiral of life fall into demonic wombs during several lives before entering the Infernal Worlds of Nature, situated (according to Dante) within the interior of the terrestrial organism.

Whosoever does not take advantage of those 108 lives enters into the Involution of the Infernal Worlds. Involution is a fall backwards, towards the past, passing through all the animal, vegetable and mineral states, and through frightful suffering... The last stage of Involution is the fossil state, after which follows the disintegrations of the lost ones. The only thing that is saved from all of that tragedy and is not disintegrated is the ESSENCE, the Buddhata or Fraction of Soul that the poor Intellectual Animal carries within their Lunar Bodies. Involution in the Infernal Worlds has as its objective the liberation of the Buddhata, the Human Soul, in order for it to reinitiate its Evolutive ascent (from the original chaos) through the mineral, vegetable and animal rungs, until it reaches the level of Intellectual Animal once again.

## **The Law of Karma and Self-Realization**

It is lamentable that so many Souls relapse, and return again & again to the Infernal Worlds. Time in the Infernal Worlds of the Submerged Mineral Kingdom is frighteningly slow and boring; for every frightfully long 100 years in those Atomic Infernos of Nature, one pays a certain quantity of Karma. The one who totally disintegrates in the Infernal Worlds, is even with the Law of Karma.

After the death of the Physical Body, everyone (after having reviewed the life that just passed) is Judged by the Lords of Karma. The lost enter the Infernal Worlds after their good & bad deeds have been placed on the Scales of Cosmic Justice. The Law of the Scale, the terrible Law of Karma, governs everything created. Every cause becomes an effect and every effect is transformed into a cause. By modifying the cause, one modifies the effect. Do good deeds to pay your debts.

The Lion of the Law is combated with the scales. If the plate of the bad deeds weighs more, I advice you to increase the weight on the plate of the good deeds; in this manner you will incline the scales in your favor. The one who has capital with which to pay, pays and comes out well in business. The one who does not have capital, pays with pain...

When an Inferior Law is transcended by a Superior Law, the Superior Law washes the Inferior Law. Many people speak about Reincarnation and Karma, but the Lunar Ego returns, re-embodies, penetrates a new womb, and this cannot be called Reincarnation. Speaking with precision we will say that that is Return. Reincarnation is only for Masters, for Sacred Individuals, for the Twice-Born, for those who already possess the Being. The Lunar Ego returns and in accordance with the Law of Recurrence, it repeats in each life, the same actions, the same dramas of preceding lives.

The Spiral Line is the line of life and each life is either repeated in more elevated, Evolutive spirals, or in lower, Involutional spirals. Each life is a repetition of the past one, plus its good or bad (pleasant or unpleasant) consequences. In a resolved and definitive manner, many people descend from life to life on the Involutional spiral line, until finally entering the Infernal Worlds. **The one who wants to attain in-depth Self-Realization should liberate themselves from the vicious circle of the Evolutive and Involutional Laws of Nature.**

The one who truly wants to come out of the Intellectual Animal or Humanoid state, the one who truly and sincerely wants to become a True Human Being, should free themselves from the mechanical laws of Nature. Everyone who wants to become a Twice-Born, everyone who wants Inner Self-Realization, should enter the path of the Revolution of Consciousness; this is the path of the Razor's Edge. This path is full of dangers within and without.

The Law of Natural Selection exists in everything created; not all students who enroll in a faculty graduate as professionals. Jesus Christ never said that the Law of Evolution would lead all human beings to the final goal. Some pseudo-esotericists and pseudo-occultists say that one reaches God through many paths. The Great Hierophant Jesus Christ only pointed out a single door and a single path: "Because strait is the gate, and narrow is the way, which leadeth unto life, and few there be that find it." The Gate and the Path are sealed by a great Stone; happy is he who can roll away that Stone...

We need to become conscious of our own Karma and that is only possible by means of the State of Alert Novelty. Every effect, every event of life, has its cause in a previous life, but we need to become conscious of this. Every moment of happiness or pain should be continued in Meditation with a Still mind and in profound Silence. The result will be the experience of the same event in a previous life. We then become conscious of the cause, whether it be pleasant or unpleasant.

Anubis is the supreme ruler of Karma and his Temple is found in the Astral World. In the Temple of Anubis and his Forty-Two Judges, the initiate can study their own book and directly negotiate their accounts. We can pay every karmic debt with good deeds, but we have to negotiate with Anubis. The Law of Karma, the Law of Cosmic Balance, is not a blind law. One can also ask for credit from the Lords of Karma, but every credit must be paid with good deeds. If it is not paid, then the Law collects with pain...

## **Samael Aun Weor's Practice to Gather the Energy of Libra**

1. Stand up, in a military position of attention, extend the arms in the form of a cross or scale.
2. Move in the form of a scale, inclining seven times to the right and seven to the left with the intention that all of your energies become equilibrated in the kidneys (the movement of the upper half of the spinal column should be like that of a scale).

The forces that ascend from the earth up through the entire organism, should become equilibrated at the waist and this is carried out successfully with the balancing movement of Libra.
