Those Old Astrologers learnt from the Gods that the day is divided into four parts, like a cross within the perfect circle. They knew that the day was only governed by four planets according to the old order: Moon, Mercury, Venus, Sun, Mars, Jupiter and Saturn.

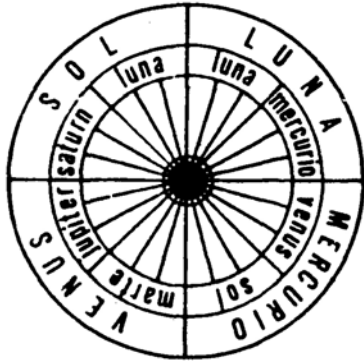

The 1st quarter of the day is governed by the planet of the day, while the 2nd, 3rd & 4th quarters of the day correspond to the order of the planets. The 12 hours of the day are also divided into four parts, each of them of 3 hours.

This simple, fast and easy method lets us know exactly what planet is ruling space at a given moment. The disciple should choose the hours to work with the stars: in the hours of the Moon, one can work with the Moon; in the hours of Mercury, one can work with Mercury, etc.
