Sexual Energy and the New Era of Aquarius

Through a deep analysis of the surprising power of sexual energy, we arrive at the conclusion that it is extraordinarily volatile and very difficult to store and control. Sexual energy is like a supply of dynamite, whose presence is a source of tremendous potential and also has the constant danger of catastrophically exploding at any time. The sexual energy has its own circulatory channels and its own organized electrical system. When it infiltrates into the mechanisms of other functions, then it can produce huge explosions and tremendous biological, physiological, and psychic catastrophes.

Violent and destructive types of manifestations of sexual energy are derived from certain negative psychological attitudes towards sex in general. Suspicion and/or fear of sex, sexual prejudices, the sense of cynicism, brutal or obscene feelings towards sex, etc., obstruct the channels in which the sexual energy circulates and, then as a result this energy deviates, infiltrating other channels, systems, and functions, where it produces horrible catastrophes. Such catastrophes are multi-faceted: sometimes having fiery aspects (which inflame people with passionate anger); at other times it is bitter with hurtful replies (harmful words, violent denunciations, etc). All these and thousands of other disgusting matters of the human species are precisely the result of the infiltration of the sexual energy into different channels and functions from its own.

Sex, Imagination, Chastity and Initiatic Tests

There is a close relationship between the sexual energy and imagination. Morbid use of the imagination exhausts the sexual energy. **It is impossible to achieve absolute chastity if we do not transform our imagination into a pure mirror without the smallest smudge.** If we turn on the television, then automatically a succession of scenes and figures pass before our eyes. The imagination is like a television screen, which is triggered by any sexual shock, not only in the intellectual sphere, but in the deeper levels of the mind as well. In addition to our imagination, we also have sub-imagination and infra-imagination. Morbid and lustful dreams are produced by the mechanical sub-imagination and by the erotic, automatic infra-imagination.

It is imperative to transform our mechanical & morbid sub-imagination and our automatic & lustful infra-imagination into the imagination of a newborn child. This type of transformation is possible only with a special kind of help, which comes from our Divine Mother Kundalini, the igneous serpent of our magical powers. It is necessary to know how to pray to the divine serpent, asking Her to perform the miracle of transforming the subjective and mechanical imagination into that of a newborn baby. Only the Divine Mother can transform the morbid sub-imagination and the bestial infra-imagination into the innocent imagination of a newborn baby.

In the physical world, some people attain perfect chastity, and have the luxury of contemplating the nude body of a person of the opposite sex without feeling lust of any kind. These people may have a pure imagination, but ignore the fact that in regions unknown to their intellect (in their sub-imagination and infra-imagination) they can be terrible fornicators. When this type of person undergoes a test of chastity in the superior worlds or in the submerged worlds of nature, when they are placed in the different states, situations, or times of the infraconscious or subconscious, they unfortunately fail. **It is necessary to know that (in the internal worlds) Initiates are placed in other times, places, situations, and various sub-human or infra-human states of consciousness, where they don't even remember their studies, the path, etc.** Now we understand the urgent necessity of transforming our sub-imagination & infra-imagination into conscious imagination, as objective and pure as that of a newborn child.

Any person can contemplate another person of the opposite sex with purity, but sub-imagination and infra-imagination can betray us in the submerged levels of the mind, leading us into coitus in other states of consciousness. Usually, nocturnal pollutions result, with abundant loss of seminal liquor. Daily practice of the Maithuna will accustom the human being to restraining themselves in the sexual act in order to avoid the spasm. As they become accustomed to the super effort this requires, they will (when performing the act in dreams) restrain themselves out of instinct, in order to avoid orgasm. A small child can contemplate a beautiful nude person in a pure and perfect way without feeling any lust. Really, unless one is as innocent as a child, it is impossible to enter the kingdom of esotericism.

If any esoteric student is subjected to terrible sexual tests in the internal worlds, without having first passed through long periods of daily sexual magic, then they will unfortunately fail. Without Sexual Magic, without the Maithuna, it is impossible to advance on the Initiatic path. When the sexual energy is centrifugal, when it flows downwards & outwards, then seminal discharges & orgasm are the result. With the Maithuna, the Arcanum A.Z.F. (Sexual Magic), the various currents of sexual energy reverse their course, becoming centripetal, and flow inwards. Then, seminal discharges & orgasm are impossible, since this energy now flows from the exterior to the interior.

Sexual energy has, in itself (on a superior molecular level) the Universal Seal or Cosmic Design of the 'Authentic Man', the Kosmic Human Being; and we can crystallize this design in each one of us by means of Sexual Magic. Sexual energy is the fundamental foundation of Intimate Self-Realization. Initiates who walk the path of the razor's edge are subjected to many sexual tests in the Infra-conscious, unconscious, human, sub-human, and infra-human worlds. If the initiate does not transform their morbid sub-imagination & mechanical erotic infra-imagination into the imagination of an innocent, newborn child, then they will inevitably fail all the sexual tests. Now understand the intimate relationship that exists between sex and imagination. Sexual energy can transform us into an angel or into a beast...

Mutual Attraction and the Cosmic Model

In conjugal life, we can see that sometimes the man leads and sometimes the woman leads. In every home, there is one who leads and one who follows, do not confuse this with commanding and being commanded. Speaking astrologically, we can say that Venus has to lead the Moon; Mercury has to lead Venus; Saturn has to lead Mercury; Mars has to lead Saturn; Jupiter has to lead Mars; and the Moon has to lead Jupiter. Clearly it is necessary to know what star guides our life.

The wise astrological combinations mean mutual attractions and perfect sexual complements. Other kinds of sexual unions are absurd and even illegitimate because they violate the sexual nature of the interested parties, leaving them with deep psychic injuries, which are difficult to heal. The Mercurial man, who adores the beautiful Venusian because of the love and sweetness which she radiates, can draw her from her romantic laziness and give her the mercurial lightness she needs. The Jupiterian woman, who is crazy with love for the Martian man, can extinguish his violence and channel his energy in an edifying way.

Moon → Venus → Mercury → Saturn → Mars → Jupiter → Moon

Just as chemical elements are attracted and combined lovingly through the complementary number of electrons, the principle of the sexual attraction of opposites always applies to the attraction and marriage of men & women, which has its origins in a Divine, Ineffable, Cosmic Model. Based on these marvelous combinations, the various human types can combine themselves and establish Perfect Matrimonies on the Earth. The Gnostic couple, working intensely within the Fiery Forge of Vulcan, within the Ninth Sphere, can achieve through the Maithuna (Sexual Magic) what the enemies of sex cannot achieve. **We find in sex the greatest force, which can liberate or enslave us.**
