

Gnostic Chemistry & Cosmology – Class 9 Summary

Magic, Transformation and External Influences (Doing vs. Everything Happens); The Ego is not Soul (the Psychic Material or *Materia Prima*); Using the Laws of the Cosmos to our Advantage (The Battle for the Soul is in Sex)

Let's continue our study of the three triangles of every Authentic Man
and how the third triangle (the Magic Triangle) relates to our Spiritual Ascension.

{PART 1}

[A] The Transformation of Ourselves:

The Synthesis of the Great Work is to utilize the 3 Primary Forces within ourselves,
through the application of the Philosophy of the Verb in order TRANSFORM ourselves.

In Levi's *Preliminary Discourse*, he says:

“God created humanity;
but, in humanity, each individual is called to create themselves...” (p. 91)

“...if we wish to create our interior Universe,
[then] we must create as God did when he created the Universe.”¹

When we understand how God created and continues to create in the universe,
then we will understand how we, too, must create.

Because the so-called ‘human being’ is not yet a finished work.

Our physical or dense aspect seems to be complete (we have a physical body),
but our spiritual aspect is not yet finished.

We lack certain principles that are necessary for our development into true human beings.

The development of these principles is the purpose of all real religious teachings.

[B] The *Potential* to Create Soul

For the Gnostic, each Essence that comes into the world
with the POTENTIALITY to be and to do many things,
but this potential is latent: it must be activated.

The Soul, for the Gnostic, is not something each Essence already possesses,
instead it is something that must be created.

One of the main reasons for the “Revolution”
is for the creation of Soul.

Within the Essence is the ‘Ens Semenit’ or the ‘seed of soul’,
the potential for Soul,
which is found deposited in the creative energy, the sexual hormones and fluids.

[C] The 3rd Triangle of the Authentic Human Being, Magic and Doing

Well, in order to understand the Magic Triangle,
it is necessary to understand what Magic is.

¹ From Ch.13 of *Treatise of Sexual Alchemy*

Some people say that Magic is:

“the *art of producing effects in the absence of causes.*”

-From the Introduction to *History of Magic*

But obviously this is impossible.

“Magic cannot be what the people who don't know it imagine it to be.

Besides, it belongs to no one

[and therefore no one can] turn it into something else;

it is what it is, [and] it is by itself, like mathematics,

since **it is the exact and absolute science of nature and her laws.**”

-From the Introduction to *History of Magic*

By learning this science and using the laws to our advantage (without violating them),
we can learn how to ascend towards our Divinity.

Now if we understand that

“There is mechanics, which is, what 'happens',
and then there is 'doing'.”

-Paraphrase from Ch.11 of *In Search of the Miraculous*

And, further, that

“Magic is 'Doing'
and 'doing' can be only of one kind.”

-Paraphrase from Ch.11 of *In Search of the Miraculous*

Then we can see that we must learn how to ‘Do’.

But first, let’s understand what it means when things just ‘happen’.

[D] Everything Happens to us Unless we Work upon Ourselves

The human being's chief delusion is their conviction that they can *do*.

All people think that they can do, all people want to do,
and the first question all people ask is ‘what should they do?’.

But actually nobody does anything and nobody can do anything.

This is the first thing that must be understood: *Everything happens.*

Everything that happens to a person, all that is done by them,
all that comes from them —*all this happens.*

And it happens in exactly the same way

- as rain falls as a result of a change in the temperature
in the higher regions of the atmosphere or the surrounding clouds,
- as snow melts under the rays of the sun,
- as dust rises with the wind.

The so-called human being is a really just a machine.

**All his deeds, actions, words, thoughts, feelings, convictions, opinions, and habits
are the results of external influences, external impressions.**

To establish this fact for oneself, to understand it, to be convinced of its truth,
means getting rid of a thousand illusions about the human being,
about his being creative and consciously organizing his own life, and so on.

Everything happens: popular movements, wars, revolutions, changes of government,
all this happens.

And it happens in exactly the same way
as everything happens in the life of individual people.

People are born, live, die, build houses, writes books,
not as they want to,
but as it happens.

Everything happens...

The 'human being' does not love, hate, desire—all this happens.

But no one will ever believe you if you tell them that they can do nothing.

This is the most offensive and the most unpleasant thing you can tell people.

[E] The Human Being's Inability to 'Do' Things Differently

"With this question of *doing*, yet another thing is connected.

It always seems to people that others invariably do things wrongly,
not in the way they should be done.

Everybody always thinks they could do it better.

**They do not understand (and do not want to understand),
that what is being done,
and particularly what *has already been done* in one way,
cannot be, and could not have been, done
in another way.**

Have you noticed how everyone now is talking about current events
(like politics, the economy, sports)?

Everyone has their own plan, their own theory.

Everyone finds that nothing is being done in the way it ought to be done.

Actually everything is being done in the only way it can be done.

If *one* thing could be different *everything* could be different.
And then perhaps the current event would not be happening.

**Try to understand:
everything is dependent on everything else,
everything is connected, nothing is separate.**

Therefore everything is going in the only way it can go.

**If people were different
then everything would be different.**

They are what they are, so everything is as it is.

This is very difficult to swallow. Because it implies that can *nobody do* anything...

So [does this really mean that] can *nobody do* anything?

Well, in order *to do* it is necessary *to be*.

And it is necessary first to understand what 'to *be*' means."

[F] To 'Be', to 'Do' and Using our Free-Will

"...we are faced with the dilemma of To Be or not To Be,
[and] we need to define ourselves..."²

The problem before us is that we do not possess true individuality.

**The majority of human beings believe
that they are making decisions for themselves,
but in reality we are programmed robots
who's decisions are directly related to external influences.**

Within us we have the potential, the possibility
of becoming something that is independent of external influences,
but this requires a great effort.

We basically need to create ourselves or transform ourselves into someone else.

We have free-will, but right now we are using this free-will to do what our desires tell us to do.

And we have been doing this so long that we believe our desires are who and what we are.

So this is our dilemma:

what if what we wish to do goes against what is comfortable and what we desire?

Meaning: if a human being is comfortable in a warm home with food to eat, etc.,
then why would they do something that goes against that?

This type of question is very important because it shows us our lack of unity.

Desiring to be comfortable, desiring to not be uncomfortable, etc., are considered basic and normal.

But we have also become slaves of this way of living: Slaves of comfort and pleasure...

And this makes use react mechanically when facing the various circumstances of life.

This is how things "happen" to us:
whatever we become comfortable with
is what we allow to happen in our lives.

² From Ch.5 of *Tarot & Kabbalah*

If we really want to stop being mechanical,
so that we can stop having things happen to us and to start 'doing',
**then we can start by investigating ourselves (self-study) and asking questions like:
why are things happening in such-and-such a way?**

As we do this, we will start to discover that we are full of contractions and hypocrisy.

We need to eliminate these things from ourselves,
because otherwise it will not be possible to BE different from what we currently are.

[G] Getting Closer to God means Purifying Ourselves

In order for us to incarnate God within ourselves, we need to clean:

- the impurities, the desires, the contraction, etc.,
from ourselves so that we can manifest the Divinity.

God is beyond time and space,
beyond the divisions of politics and religion,
and certainly beyond the selfish desires of our Egos or "I's".

We need to learn how to BE so that we can experience the fullness of life.

This is possible by working with our own Intimate Spiritual Guide, the Master in us,
the local representative of God, or is sometimes called our Guardian Angel.

In Gnosis this Spiritual Helper has the name of the "Intimus" or "Intimate", "the Inner Being",
or just simply "the Being".

The Being is obviously intimately related to 'Being' itself (and learning 'to be').

In Ch.1 of an Esoteric book called *The Bible of Liberty*, Eliphas Levi says: "God is being."

If this is true, then we must learn how to 'be',
by working with our own Inner Being,
and then we can learn how to 'do'.

[H] The Spiritual BEING within Ourselves is not Egoic Desire

Only the BEING can DO,
and the so-called 'human being' still does not have the BEING [incarnated].

Human beings only have the "I" [or Ego] within themselves, and this is not the BEING.

The "I" [or Ego] is composed of thousands of little "I's" separated from each other;
often unknown to each other and even mutually fighting amongst themselves.

THE HUMAN BEING IS A PLURALITY AND HIS TRUE NAME IS LEGION.

The so-called 'human being' still does not have a truly defined Individuality,
the so-called 'human being' still does not have his OWN SINGULAR BEING;
the 'human being' is divided into a legion of little "I's".

These "I's" fight for Supremacy, each of them wants to be the lord;
each desire, courage, good weather, cold, every thought,
gives birth to new "I's".

We carry the factors of War within us,
the "I's" of Greed, Cruelty, Selfishness, Hatred, etc.,
are within the 'human being' himself.

When these "I's" are dissolved, based on COMPREHENSION AND SANCTITY,
when the 'human being' possesses the Sacred Fire,
then he will INCARNATE HIS TRUE BEING.

Only the BEING can overcome planetary influences.

Only the BEING can handle those cosmic forces which produce War.

Only those who possess the BEING can be called TRUE men.

Unfortunately, THE INTELLECTUAL ANIMAL is a sleeping machine
operating under the catastrophic influences of the Cosmos,
every machine responds to the force that moves it."

{PART 2}

[I] The Ego is not the Soul, we Need to Create the Soul

The INTELLECTUAL ANIMAL does not have SOUL,
but does have the psychic material necessary to CREATE SOUL.

We must distinguish between the "I" and the SOUL.

The "I" is the root of all bitterness and ignorance.

It is a LEGION OF DEVILS,
because within a person there are many, many "I's".

The poorly-informed pseudo-esotericists believe that we have A SINGLE MIND.
But, really, we have thousands of minds.

Each small "I" of the LEGION which composes the "I"
has its own mind, its own ideas and its own projects.

The 'human being' does not yet have INDIVIDUALITY, SINGULARITY, nor UNITY.

People think that they have a SOUL
when in truth they only have SATAN (the "I") within themselves.

**SATAN, the LEGION OF THE "I", the EGO,
foolishly wastes the psychic substance,
the PSYCHIC MATERIAL necessary for creating the soul,
in atomic explosions of
Anger, Greed, Lust, Pride, Envy, Laziness, Gluttony, etc.**

Nothing comes from it.

If the "I" wastes the MATERIA PRIMA³,
the PSYCHIC MATERIAL, then it is clear that we can not create SOUL.

³ Latin meaning "Primary Matter" or "Primary Material"

Whoever does not CREATE SOUL is devoured by the abyss,
in their time and in their hour
[through the process of Involution or Devolution].

“For what profiteth a man, if he shall gain the treasures of the whole world,
but lose his SOUL?”. [Matt. 16:26; Mark 8:36;]

**There really only exists one system to create SOUL,
and this system is that of Dissolving the "I".**

In order for there to be no more Squandering,
we need to kill the "I",
then the PSYCHIC SUBSTANCE accumulates within
becoming a PERMANENT CENTER OF CONSCIOUSNESS.

That CENTER is called SOUL. We need to create SOUL.”

[J] Evolution, Involution and the Intimate Revolution: It is not a Law to Develop

Many students of Psuedo-Esotericism believe that through Evolution they will reach Perfection,
but Universal Gnosticism states that Perfection is only possible through the Revolution.

EVOLUTION and INVOLUTION, are two mechanical laws
which simultaneously process themselves in the whole of Nature.

We can not deny these two laws, but we can not logically accept
that MECHANICITY will lead us to INTIMATE SELF-REALIZATION.

No mechanicity can AWAKEN US, no mechanicity can INTIMATELY SELF-REALIZE US.

**SELF-REALIZATION can only be the result of
a conscious and positive work upon ourselves
and no Mechanical Law can do this work for us.**

It is URGENT to comprehend that
only the REVOLUTION OF THE CONSCIOUSNESS
can lead us to INTIMATE SELF-REALIZATION.

The PATH OF THE RAZOR’S EDGE is the path of the True Revolution.

This path is the one that possesses all the means to develop
the hidden possibilities of each and every human being.

The Development of these possibilities is not a Law.

**The tragic and gloomy Law which exists for the INTELLECTUAL ANIMAL,
is that he remains living within the circle of mechanical forces,
and becomes a MACHINE-MAN or Programmed Robot.**

[K] The Path of the Intimate Revolution means Struggling against Everything that Exists

The Path which leads to the development of all the DIVINE POSSIBILITIES
is totally REVOLUTIONARY.

We have to go against Nature
and draw the sword in order to fight against her tenebrous powers.

We must struggle against everything that exists,
against the Cosmos and against ourselves.

This explains why the PATH OF THE RAZOR'S EDGE is so difficult and exhausting.

THE PATH OF THE RAZOR'S EDGE
IS THE PATH OF THE TRUE INTERIOR REVOLUTION.

This Path is the opposite of ordinary life, it is the opposite of every day life.

[L] Nature is Opposed to the Intimate Revolution

The human being is full of POSSIBILITIES
that may remain without any development
and may even disappear all together,
if he doesn't have the courage to put himself
onto the path of the INTIMATE REVOLUTION.

**Everything about INTIMATE SELF-REALIZATION
is contrary to the interests of nature,
and when a person decides to enter onto the Path of REVOLUTION,
Nature launches itself against them with all its tenebrous powers,
really Nature needs the human-machine [the intellectual animal],
but she needs him as he is, with the exception of his perversity.**

Really the HUMAN-MACHINE is necessary
for the economy of the organic and inorganic kingdoms.

The human being is, in relation to NATURE,
what the liver cells or brain cells are for the entire human organism.

Nature uses the human-machine for her organic purposes
and then swallows him in the ABYSS.

{PART 3}

[M] Learning to use the Laws of the Cosmos to our Advantage

In our previous classes, we have studied the idea that there are different laws in the Cosmos.

The purpose of this was so that we could see

- that there are worlds where the laws are greater than ours (below us)
- and there are worlds where the laws are less than ours (above us).

For example the Earth, on which we live, has 48 laws.

We can not change these laws, but what we can learn to do is use them to our advantage.

Meaning that we can study and learn the mechanics of the Universe
and then employ them for the Revolution.

In this way we can work to establish ourselves in a world superior to our own
where there are less laws: **we can work to change our position in the Cosmos.**

“The laws cannot be changed,
but liberation from a considerable portion of them is possible,
that is to say, there is a possibility of changing the state of affairs *for oneself*,
it is possible to escape from the general law.

**But one can change one's own position in relation to this law;
one can escape from the general law.**

[N] The Battle for the Soul is in Sex

One of the Laws that we can use to our advantage is related to the Sexual Energy

...in the power of sex over people,
are included many different possibilities.

Sex includes the chief form of slavery
and it is also the chief possibility of liberation.

This is what you must understand...

“In Jeremiah, chapter 21, verse 8, one reads:

"Behold, I set before you two paths, the way of life, and the way of death."

Man and woman can use sexual contact and the delights of love and kisses
to transform themselves into gods or into demons.”⁴

[O] Sex and the Magic Triangle

“From the dawn of life a great battle has existed
between the Powers of Light and the Powers of Darkness.

The hidden root of this battle is in sex.”⁵

The 3rd Triangle, the Magic Triangle, is related to Sex.

We must learn how to use sex to our advantage,
to control the Sexual Impulse and not let it control us.

**The 'New birth' depends as much upon sex energy
as do physical birth and the propagation of species.**

[P] Creating the Soul through the Sexual Substance (the Hydrogen SI-12)

'Hydrogen' SI-12 is the 'hydrogen' which represents the final product
of the transformation of food in the human organism.

This is the matter with which sex works and which sex manufactures.
It is 'seed' or 'fruit'.”

⁴ From Ch.3 of *The Perfect Matrimony*

⁵ From Ch.3 of *The Perfect Matrimony*

“Hydrogen SI-12 is produced in the human organism,
being initiated from the process of digestion.

DO: when the food is in the mouth.

RE: when it reaches the throat.

MI: when it reaches the level of the lungs.

FA: when it reaches the stomach, spleen and liver.

SOL: when it reaches the solar plexus.

LA: when it reaches the colon [and the] pancreas.

SI: when the H-SI-12 is produced”⁶

“Hydrogen' SI-12 can pass into the DO of the next octave
with the help of an 'additional shock'.

But this 'shock' can be of a dual nature and different octaves can begin:

- 1) one outside the organism which has produced SI,
- 2) and the other in the organism itself.

The union of male and female SI-12 and all that accompanies it
constitutes the 'shock' of the first kind
and the new octave begun with its help develops independently
as a new organism or a new life.

This is the normal and natural way to use the energy of SI-12.

But in the same organism there is a further possibility.

And this is the possibility of creating a new life within the actual organism,
in which the SI-12 has been manufactured,
without the union of the two principles, the male and the female.

A new octave then develops within the organism, not outside it.

This is the birth of the 'astral body'.

You must understand that the 'astral body' is born of the same material,
of the same matter as the physical body,
only the process is different.”

[Q] Creating the Solar Astral Body with the Hydrogen SI-12

“We can reach immortality in the Astral World;
however this is only possible by creating the EIDOLON (THE [SOLAR] ASTRAL BODY).

But the [solar] astral body is a luxury that few people can afford.

Rare are the individuals who are born with this splendid vehicle.

**The “Raw Material for the Great Work”,
the ALCHEMICAL ELEMENT by means of which we can create the Astral Body,
is Sexual Hydrogen SI-12.**

⁶ From Ch.12 of *Tarot & Kabbalah*

This Hydrogen represents the final product
of the transformation of the food inside the marvelous laboratory of the organism.

**It is evident that this is the most important material
with which the sexual center works;
the preparation of this substance is carried in rhythmic consonance
with the seven notes of the musical scale.**

“The 'astral body' is born of the same material as the physical body,
only the process is different.

The whole of the physical body, all its cells, are permeated by emanations of the matter SI-12.

And when they have become sufficiently saturated the matter SI-12 begins to crystallize.

The crystallization of this matter constitutes the formation of the 'astral body'.

The transition of matter SI-12 into emanations
and the gradual saturation of the whole organism by it
is what alchemy calls 'transmutation' or transformation.

It is first this transformation of the physical body into the astral body
that alchemy called the transformation of the 'coarse' into the 'fine'
or the transformation of base metals into gold.”⁷

[R] The Process to Create the Solar Astral Body is White Tanta: Sex-Yoga

“The esoteric procedure can be found in SEX-YOGA, the MAITHUNA, SEXUAL MAGIC.

Connection of the LINGAM YONI-PHALLUS-UTERUS
without [the] ejaculation of the ENS SEMINIS or ORGASM.

The restrained desire will give rise to marvelous processes
of crystallization of the Hydrogen SI-12 in a superior octave.

The nourishment of the Astral Body is different.
Unquestionably the Astral Body needs its nourishment and nutrition.

Since the physical body is wisely controlled by forty eight laws,
it is a clear and manifest consequence that
the principal Hydrogen of the cellular body is Hydrogen (48) forty eight.

It is relatively easy to save this specific type of Hydrogen
when we follow the straight path.

The excess Hydrogen (48) forty-eight not spent in the physical activities of the world
is marvelously converted into Hydrogen (24) Twenty-four.”

[This is related to the Transformation of Impressions.]

“Hydrogen 24 always becomes the extraordinary nourishment of the Astral Body.

⁷ Paraphrase from Ch.12 of *In Search of the Miraculous*

It is urgent to affirm with great emphasis that the sidereal or astral body of the ALCHEMISTS and KABALISTS develops and unwinds marvelously under the absolute control of the [24] twenty-four laws.

Every organ is known clearly by its functions,
and one knows that one has an astral body when one is able to travel with it.”

[S] The Process to Create the Solar Mental Body is the same

“By means of the SAHAJA MAITHUNA (Sexual Magic) we can and even must pass on the excess Sexual Hydrogen SI-12, not used in the fabrication of the Astral Body, to a 2nd octave of superior order.

Obviously this crystallization of the Sexual Hydrogen is solemnly processed according to the DO-RE-MI-FA-SOL-LA-SI in a 2nd transcendental OCTAVE.

Nourishment is different; it is evident that every organism that progresses into existence needs its specific food and its nourishment.

The Mental Body is not an exception to the general rule.

The surplus Hydrogen 24 not spent in the nourishment of the Astral Body is converted into Hydrogen 12. (Do not confuse this with the Sexual Hydrogen Si-12).

As a consequence or evident corollary, it is valid to assert clearly that the Hydrogen 12 is a cardinal and definitive food for the Mental Body.

It is not possible to achieve the total individualization of our understanding without the creation of a Mental Body.

Only by creating such a vehicle will we possess “ORGANIZED INFERIOR MANAS”,
[a] particular individual Concrete Mind.

It is evident that one knows that one has a Mental Body
when one can travel with it consciously and positively across the super sensible worlds.

[T] The Process to Create the Solar Causal Body is also the same

By means of SEX-YOGA with its famous SAHAJA-MAITHUNA (Sexual Magic), the Sexual Hydrogen SI-12 can and must pass to a 3rd Octave of a superior order.

The crystallization of this Hydrogen into the splendid and marvelous form of the Causal Body will be processed with the notes DO-RE-MI-FA-SOL-LA-SI in the mentioned Octave.

Nourishment is different. The Causal Body also needs its food and this is taken from the surplus Hydrogen 12 not consumed by the Mental Body.

Obviously the Hydrogen 12 (not to be confused with the Sexual Hydrogen SI-12), can and even must be converted into Hydrogen 6 which is the specific food of the Causal Body.

[U] The Solar Causal Body allows us to Create Circumstances

“We can assert with great solemnity and without much presumption
the tremendous realism evident and palpable in three specific types of action:

- A) Acts based upon the Law of Accidents.
- B) Acts based upon the eternal Laws of Return and Recurrence.
- C) Marvelous acts arising from Conscious Willpower.

The basis for the first type of action is certainly
the mechanical aspect natural to this order of things.

A fundamental element of the second type of action is doubtless
the unceasing repetition of many dramas, comedies and tragedies.

This always happens from life to life across time and space, in the painful valley of Samsara.

The drama is for people more or less good,
the comedy for the clowns,
the tragedy for the perverse.

**Everything happens again as it has happened already,
plus the positive or negative consequences.**

The main cause of the third type of action is certainly
the Causal Body or Body of Conscious Willpower.

Acts born of Conscious Willpower are only possible
when we have had the luxury of having created our own particular Causal Body.

[U] We need to Create the Solar Bodies, We were Not Born with Them

With great sincerity and tremendous GNOSTIC realism, we affirm the following:
the intellectual animal, wrongly called man,
does not have the [Solar] Astral, Mental and Causal bodies.

He has never created them.

It is unacceptable, indefensible, inadmissible, to suppose even for an instant
the total manifestation of man,
when not even these super sensible vehicles have been created.

If we truly want to become authentic men,
it is a basic, indispensable, urgent, condition
to create the mentioned vehicles within ourselves.

It is a grave error to believe that the three-brained or three-centered bipeds
have come to this world with such bodies.

In the medulla and the semen there are infinite possibilities
that, if developed,
are able to transform us into legitimate Human Beings.

However these could get lost, being normal that they actually do get lost
when we do not work with the fundamental scale of the hydrogens.”

[V] The Work with the Hydrogen SI-12

“So, if it is necessary for us to create a Psychological Moon,
if it is necessary for us to create a Psychological Solar System within ourselves,
[then] it is also necessary for us to create the Psychological Sun within ourselves.”⁸

“THE AUTHENTIC HUMAN BEING needs to eliminate the "Ego"
and create the Solar Bodies
with the transmutation of Hydrogen-SI-12 (12 laws).

The fabrication of the Solar Bodies has an intimate relationship with Music and its 7 Notes.

Hydrogen SI-12 is produced in the human organism,
being initiated from the process of digestion

and can be elevated to a superior musical octave
(after the note SI comes DO,
which corresponds to another musical scale to a superior octave)
through the Restraint of the sexual impulse and orgasm
is how the H-SI-12 passes to a SECOND OCTAVE,
giving origin to the Solar Astral Body;
through a third shock the Hydrogen will pass to a THIRD OCTAVE
which will give rise to the Solar Mental Body;
a FOURTH OCTAVE gives birth to the Body of Conscious Willpower.

All this work is with the Maithuna.

Once in possession of these 4 Vehicles,
our Divine Being will enter through the pineal gland
and we will then attain the SECOND BIRTH and become True Men [or Authentic H.B.];

while we have the Lunar Animal Bodies we are Intellectual Animals
and are only a cocoon that can be transformed into a Celestial Butterfly,
which is [something that is] attained with SUPER-EFFORTS.

The nourishment of the Physical Body is in H-48 (48 Laws).
If we conserve this Hydrogen it can be transformed into H-24 (24 Laws)
which serves as nourishment for the Solar Astral Body,

this Hydrogen (24) is wasted with

- excessive work,
- futile efforts,
- desires,
- emotions,
- anger.

H-12 is the nourishment of the Solar Mental Body,
and it is wasted with intellectual efforts,

but if we save it, then H-6 will be obtained
in order to nourish the Body of Conscious Willpower.”

⁸ Paraphrase from ‘The Infinite Possibilities of Alchemy’ [“Las Infinitas Posibilidades de la Alquimia”] from pages 1318-1332 of *El Quinto Evangelio*
