

Introduction to Gnostic Kabbalah – Notes 9

<http://www.gnosticstudies.org/index.php/kabbalah/intro-to-gnostic-kabbalah>

The Transformation of Ourselves and the Magic Triangle

The Synthesis of the Great Work is to utilize the 3 Primary Forces within ourselves, through the application of the Philosophy of the Verb in order TRANSFORM ourselves. God created humanity; but, within humanity, each individual is called to create themselves. If we wish to create our interior Universe, then we must create as God did when he created the Universe. Therefore, if it is necessary for us to create a Psychological Moon, and a Psychological Solar System within ourselves, then it is also necessary for us to create the Psychological Sun within ourselves.

The creation of our Psychological Sun and our Spiritual Transformation is related to the 3rd Triangle (and the Third Force) which every Authentic Human Being possesses: the Magical Triangle. This Creation and Transformation is, then, clearly related to Magic. Magic is not the ability to create effects without causes (since that would be impossible), it is **the exact and absolute science of nature and her laws**. By learning this science and using the laws to our advantage (without violating them) we can ascend. In this way we can work to establish ourselves in a world superior to our own (where there are less laws): we can work to change our position in the Cosmos.

Now if we understand that there is mechanics or what 'happens' and that there is 'doing', then we can understand that Magic is 'Doing'. Thus we can see that we must learn how 'to do' in order to transform ourselves. The chief delusion of the so-called 'human being' is their conviction that they can 'do'. All people think that they can do, all people want to do, and the first question all people ask is "what should they do?". But actually nobody does anything and nobody can do anything.

This is the first thing that must be understood: Everything happens. But no one will ever believe you if you tell them that they can do nothing. This is the most offensive and the most unpleasant thing you can tell people. It is particularly unpleasant and offensive because it is the truth, and nobody wants to know the truth. The so-called 'human being' is really just a machine, a programmed robot. **All their deeds, actions, words, thoughts, feelings, convictions, opinions, and habits are the results of external influences, external impressions.** In order 'to do' it is necessary 'to be'. And therefore we need to understand what 'to be' means. We are faced with the dilemma of 'to be' or not 'to be', and we need to define ourselves...

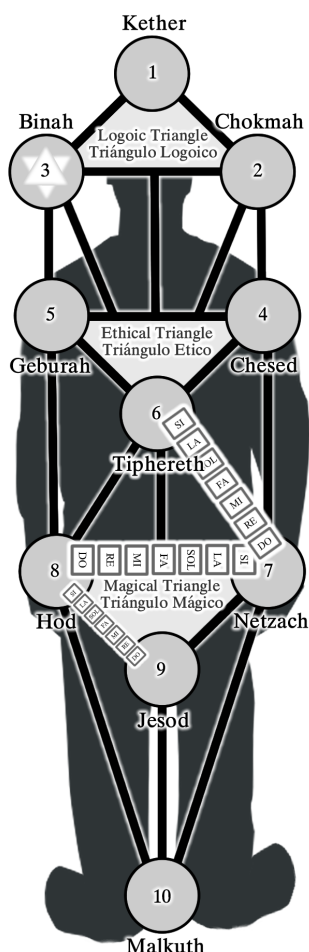

For the Gnostic, each Essence that comes into the world has the POTENTIALITY to be and to do many things, but this potential is latent: it must be activated. The students of all the Pseudo-Esoteric and Pseudo-Occultist Schools trust that someday they will reach Perfection and Final Liberation through the Law of Evolution. But, Evolution and Involution are two mechanical laws which simultaneously process themselves in all of Nature. We can not deny those two laws, but we can not logically accept that mechanicity will lead us to Intimate Self-Realization. **No mechanicity can awaken us.** Self-Realization can only be the result of a conscious and positive work upon ourselves and no Mechanical Law can do this for us.

The Soul, for the Gnostic, is not something each Essence already possesses, instead it is something that must be created. One of the main reasons for the Conscious "Revolution" is for the creation of the Soul. The Essence has the 'Ens Semen' or the 'seed of soul', which has the potential to become Soul and is found deposited in the creative energy (the sexual organs, glands, hormones, fluids and substances). So how is this related to the Magic Triangle which exists in every Authentic Human Being? Remember that the Center of Gravity of the Magic Triangle is in Jesod and, in the 'human being', the Sephirah Jesod corresponds to the sexual organs.

Sex and the Transmutation of the Hydrogen SI-12

Within sex is both the chief form of slavery and also the chief possibility of liberation. Man and woman can use sexual contact and the delights of love to transform themselves into gods or into demons. From the dawn of life a great battle has existed between the Powers of Light and the Powers of Darkness. The hidden root of this battle is in sex. **The 'New birth' depends as much upon sex energy as do physical birth and the propagation of the species.** Hydrogen SI-12 is the final product of the transformation of energies in the human organism. It is produced beginning with the process of digestion. This is the matter with which sex works and which sex manufactures. It is both 'seed' and 'fruit'.

The union of male & female Hydrogen SI-12 and all that accompanies it constitutes a 'shock' outside the organism which has produced it. The result is that a new octave develops independently as a new organism or a new life outside the organism (a child in the physical world). This is the normal and natural way to use the sex energy, the Hydrogen SI-12. But, in the same organism, there is a further possibility of creating a new life within the actual organism in which the Hydrogen SI-12 has been manufactured. A new octave then develops *within* the organism, not outside of it. This is the birth of the Solar Astral Body. **Understand that this 'astral body' is born from the same material (from the same matter) as the physical body, only the process is different.**

The Authentic Human Being needs to eliminate the "I" or "Ego" and create the Soul (the Solar Bodies, the Golden Child or Golden Body of Alchemy) with the transmutation of the creative energy (the Hydrogen-SI-12). The fabrication of the Solar Bodies has an intimate relationship with Music and its Seven Notes. **Hydrogen SI-12 can be elevated to a superior musical octave** (after the note SI comes DO, which corresponds to another musical scale, a superior octave) **through the Restraint of the sexual impulse and the avoidance of orgasm.** This is how the Hydrogen SI-12 passes on to a Second Octave, giving origin to the Solar Astral Body. Through a third shock the Hydrogen will pass on to a Third Octave which will give rise to the Solar Mental Body. A Fourth Octave gives birth to the Body of Conscious Willpower. All this work is done with White Sexual Magic (Sex Yoga, the Sahaja Maithuna, Transmutation of the Sexual Energy).

Once in possession of these 4 Vehicles, our Divine Being may enter through the pineal gland and we will then attain the SECOND BIRTH and become True Men (Authentic Human Beings). But as long as we have the Lunar Animal Bodies: we are simply Intellectual Animals who are only 'spiritual caterpillars'. We need to go into the 'spiritual cocoon' which can transform us into Celestial Butterflies and this is attained with Tremendous EFFORTS.

The Crystallization of the Hydrogen SI-12
